

Product Information

VENTO LS

The Vento LS is a speaker stand specially designed for the Vento series, perfectly showcasing the Vento 31, Vento 21, and Vento 51 Center. The speakers can be securely fastened to the stand with screws – the cables run invisibly through the powder-coated steel tubing, creating a sleek, structured look. The wide base plate made of lacquered MDF with height-adjustable spikes ensures a secure footing. Available in White Semi-Gloss, Black High Gloss, and Black Semi-Gloss. Made in Germany.
