

The Vanguard Dynamics EN-5T is an indoor/outdoor speaker capable of 8 ohm or 70V/100V loads designed to provide flexibility in different install environments. The durable all weather enclosure is matched with a acoustically tuned 5" woofer and 1" tweeter filling any indoor or outdoor zone with full and rich sound. Hang them from the ceiling as pendant speakers, mount them on any surface or tree, or simply stake them in your garden creating your personal concert hall. Adding 70v settings allows for ultimate flexibility in commercial applications, with an input and output loop directly on the speaker, daisy chaining never got easier.
