WEIGHT	46 lbs
SHIPPING WEIGHT	51 lbs
INCLUDED ACCESSORIES	N/A
REGULATORY - CE	Approved
RoHS	Approved

Description

Enclosed in a ported design and featuring a 10" long-throw mica-graphite poly cone with NBR Surround, the Power Lux PL-10p 10-inch ported DSP subwoofer is an auditory powerhouse equipped with a dedicated app (iOS and Android compatible) which is used to control level, phase, EQ, high/low pass crossovers, signal sensing auto turn on/off, and user-generated presets for audio personalization. The sub comes with LFE and stereo inputs/outputs. The inputs and outputs have independent high pass and low pass control making the subs usable as part of a sub/sat system or can be daisy chained with multiple subs.

Boasting contemporary finishes that effortlessly complement any space, these subs come in classic black or can be customized with matte or high-gloss colors to match unique style and interior design. Each Power Lux subwoofer and Premier Lux speaker, individually sold, is handmade and receives meticulous craftsmanship and painting at our Jacksonville, Florida facility.

Features

- 325 Watt RMS, 750-Watt Peak Power Integrated DSP Amplifier
- 10" or 12" Long Throw Mica-Graphite Poly Cone with NBR Surround
- Sealed or Ported Enclosure
- Signal Sensing Auto Turn On/Off
- Level and Phase Control
- 5-band Manual EQ
- Variable Crossovers
- Stereo LFE Inputs
- Stereo Line Outputs with Wide Range and Subwoofer Mode Configurations
- Audio Control through MSE Sound Application

Applications

The PL-10p is designed for home audio applications. For a complete home theater, use in conjunction with a PL150, PL350 or PL950.

Warranty Information

The PL-10p comes with a limited ten (10) year warranty. Products not sold through an authorized dealer/distributor will not be supported by the factory warranty. Warranties are non-transferable.
