

Description

Featuring two patented 6.5" tri-laminate RPF Flat Piston/Kevlar/ Fiberglass woofers and a 1.125" soft dome tweeter, the PL350 creates accurate and powerful sound.

The RPF drivers accelerate quickly to high acoustic levels while producing crystal-clear sound at any volume, while simultaneously producing a much larger dispersion pattern. The Absolute Phase® Crossovers expand the resulting "sweet spot" both vertically and horizontally while inhibiting "break up modes".

Features

- Two 6.5 inch tri-laminate of RPF, Kevlar and Fiberglass (Patent #4566178 woofers that match the speed and accuracy of the 1.125 inch soft dome tweeter
- Absolute Phase® Crossover networks ensure that the speaker drivers are acoustically and electronically "in phase" and moving in unison
- Magnetic black cloth grille

Applications

The PL350 is designed for home audio applications. For a complete home theater, use in conjunction with a PL350 and Power Lux subwoofer.

Warranty Information

The PL350 comes with a limited ten (10) year warranty. Products not sold through an authorized dealer/distributor will not be supported by the factory warranty. Warranties are non-transferable.
