

Smart Amp 5.1

- Dolby Atmos & DTS-HD
- 6 passive Kanäle & 8 wireless Kanäle
- AirPlay 2 & Chromecast built-In
- Spotify Connect

Smart and Wireless with Dolby Atmos®

Connect your passive speakers and the smart world of streaming: With the powerful Smart Amp 5.1 as a multiroom AV amplifier with Dolby Atmos® technology, up to 6 wired passive speakers and up to a further 8 wireless speakers from the Canton Smart series can be combined. The Smart Amp 5.1 is a smart, unobtrusive AV amplifier solution that can replace large, heavy amplifiers in this age of minimalist living rooms. The powerful 600-watt Smart Amp 5.1 effortlessly manages and drives numerous passive and wireless speakers - up to a complex Dolby Atmos® system in 7.1.4 configuration. It can be flexibly adapted to your listening room and listening habits, conveniently via remote control and on-screen menu. With Apple AirPlay, Chromecast built-in and Spotify Connect features, you can stream your favourite music wirelessly. The variable connectivity and ease of use with 4K compatible HDMI connections including eARC and many additional inputs, allows you to connect your TV and other playback devices directly with the Smart Amp 5.1. Whether high-end stereo system or a combination of wired and wireless speakers - the possibilities are numerous for room-filling home cinema sound and flexible streaming.

Control centre for home cinema sound and picture

The Smart Amp 5.1 brings your razor-sharp TV picture to life with gripping, room-filling sound thanks to the four HDMI connections with eARC and HDCP2.2. As multi-channel sound formats, the Smart Amp 5.1 supports Dolby Atmos®, DTS HD and the video format HDR (High Dynamic Range). The on-screen display on the TV allows you to conveniently set up the system and adjust it perfectly to your sound preferences. Thus, in addition to the connection as a stereo or AV amplifier for direct connection to the TV, the Smart Amp 5.1 functions as a control centre for a wide variety of input players: from CD players, game consoles, Blu-ray players to a classic radio receiver. The freely configurable inputs and outputs provide flexible connection options for your speakers or playback devices.

Wireless Music-Streaming in High-Res

The high-quality AV amplifier Smart Amp 5.1 serves as a flexibly configurable connection centre for both passive speakers and Smart speakers. The basis for impressive sound experiences is created here by a loss-free and high-resolution transmission of up to 24 bit / 96 kHz. This enables a combination of 6 passive speakers and wireless up to 8 Smart speakers. The multidimensional virtualiser ensures stunning 3D surround sound - even with just 2 connected speakers. The powerful DSP enables high-end stereo sound and impressive multi-channel sound. With the Smart Amp 5.1, the variations are versatile and unique: stereo or multi-channel, wired or wireless, the flexible combination of both worlds as well as SingleRoom and Multiroom streaming - everything

is possible. For example, you have the option of wiring your front speakers and connecting the rear speakers wirelessly.

The perfect amplifier for ceiling, wall and outdoor speakers

Experience brilliant sound for your installation speakers. Simply connect the Smart Amp 5.1 with up to 6 ceiling, wall or outdoor speakers and enjoy the listening pleasure of an almost invisible sound system. Whether for the living room, the bathroom or the kitchen - the speakers can be inconspicuously installed in the wall. Via the Smart Amp 5.1, you can conveniently stream your favourite music at any time and in any room. The timeless design blends unobtrusively into any style of furnishing and can be placed unobtrusively anywhere.

Simple operation - also by voice command

In addition to manual operation via the app, you can also start and pause playback, adjust the volume or operate an entire Canton Smart System by voice. Although there are no built-in microphones in our Smart Amp 5.1, it still offers the highest possible compatibility when it comes to voice control. To operate the Smart Amp 5.1 by voice, there are several options: Use the Siri or Google Assistant voice assistants of your smartphone or an external Apple or Google device of your choice. This way, you can choose to play your favourite music at the touch of a button or by voice in any room you want.

Einfache Einrichtung mit Apple AirPlay oder Google Home App

Mit Apple Airplay oder der Google Home App lässt sich der Smart Amp 5.1 ganz bequem vom Smartphone aus ins WLAN einrichten und verwalten. Dabei unterstützt der Verstärker sowohl 2,4 GHz- als auch 5 GHz WLAN-Verbindungen.

Immer auf dem neuesten Software- Stand mit automatischen Updates

Einmal im WLAN integriert, bleibt der Smart Amp 5.1 durch automatische Software-Updates immer auf dem neuesten Stand. So erhalten Sie auf Wunsch alle neuen Funktionen per Update auf Ihrem Gerät.

Ton- und Musikwiedergabe auch ohne WLAN

Sollte der Smart Amp 5.1 nicht mit dem WLAN verbunden sein, können Sie dennoch sämtliche Funktionen nutzen und bei Bedarf Musik via Bluetooth kabellos an die Soundbar übertragen.
