

# PAUA

The Pua; adorned with sea shell to remind us of the beauty of the sounds of the world all around us. Nature healing nature.

**The Pua** is one of SoundSmith's most highly regarded top of the line low output cartridges. It has won numerous accolades and praise from users and reviewers around the world, including an "Editor's Choice Award" in 2015 from TAS. Featuring ultra-low internal moving mass, a specialized telescoping alloy cantilever and highly polished low mass nude Contact Line stylus, the Pua will

add a unique quality of warmth and smoothness to any analog system without leaving behind all the critical details you want and need to hear. The Pua reaches new heights of stylus control and performance, as is confirmed by its incredibly high channel separation figures. We have accomplished a work of art with the **Pua** design, resulting in an unparalleled and sublime performance.

## PAUA / NAUTILUS Technical specifications

<b>Stylus:</b> Contact Line Nude, 0.100mm SQ	1000 Hz >34 dB 50-15,000 >25 dB
<b>Radius of curvature:</b> Nude Contact Line SELECTED	<b>Channel difference:</b> <0.5 dB (Stereo) <1.0 dB (Mono)
<b>Cantilever:</b> Telescoping Aluminum Alloy	<b>Output voltage PAUA:</b> 0.4 mV
<b>Recommended Tracking force:</b> 1.7 to 1.9 Grams	<b>Output voltage NAUTILUS:</b> 1.1 mV
<b>Effective tip mass:</b> 0.30 mg	<b>Cartridge weight:</b> 10.25 Grams
<b>Compliance:</b> 10µm/mN (low compliance)	<b>Loading PAUA:</b> ≥ 470 Ω <b>Loading NAUTILUS:</b> ≥ 1.5 kΩ
<b>Frequency response:</b> 20-20,000 Hz ± 1.0 dB	
<b>Channel Separation (stereo only):</b>	

# NAUTILUS

This is our new medium output design. All other technical specifications are identical to the PAUA
